21 November 2025

Notification of interest rate change

Dear Sir/Madam

Product Account Number: 3-000-020-636-215

The applicable interest rate to your facility has **decreased** by 0.25% with effect from 21 November 2025. This follows a decision by the South African Reserve Bank to decrease the Repo Rate by 0.25%. Kindly refer to your facility letter for further information regarding your applicable interest rate.

Kindly refer to the revised repayment schedule below for further information to see how this will impact your repayments.

Should you have concluded a fixed interest rate agreement with FirstRand Bank Limited, the agreed fixed rate will continue to apply to your facility, until the agreement expires

Repayments collected by debit order will be adjusted automatically, with effect from November 2025 and you are required to kindly ensure that the necessary funds are available in your nominated current account.

Stop order repayments will not be adjusted automatically and you will need to contact your bank at which your nominated current account is held to adjust the stop order. Similarly, if you make cash repayments, kindly ensure that the necessary adjustments are made.

Yours Sincerely,

FNB Private Clients
